

At **Kelsey Construction**, we believe it is possible to execute our work with controls that prevent or reduce environmental impacts.

Our commitment is to:

- ❖ Protect the environment through sustainable practices in civil construction activities and site operations.
- ❖ Prevent the pollution across all work activities;
- ❖ Comply with ISO 14001:2015, applicable legal, regulatory, and contractual requirements; and
- ❖ Work towards continuous improvement.

The objectives framework we will use to pursue this commitment is:

- ❖ Protect the environment by managing hazardous substances, waste, and local environmental impacts responsibly to ensure safe handling, environmentally friendly disposal practices, and minimising impacts on flora, fauna, sensitive areas, and other potential adverse effects of our operations.
- ❖ Encourage and train staff to respect the environment through awareness programmes, procedures, and information on safe handling, storage, distribution, and disposal of materials.
- ❖ Servicing and maintaining vehicles and equipment to meet emission and environmental standards.
- ❖ Managing energy and water efficiently, and promoting conservation measures.
- ❖ Carrying out regular reviews of our processes to verify compliance with this policy.
- ❖ Providing information about any potential environmental hazards to clients, authorities, employees, and other affected organisations.
- ❖ Set measurable environmental objectives and targets, guided by our [Operational Objectives](#), which will be monitored regularly.

This policy is communicated throughout our organisation and displayed in visible locations. To support transparency, we will communicate this to all clients, contractors, regulatory bodies, and other interested parties as required.
